

STRATEGIC LEADERSHIP ASSESSMENT *Developing Leaders From Within*

Help People Reach Their Full Potential

What is Strategic Leadership Assessment?

Strategic Leadership Assessment is a process that helps companies assess their current level of talent and helps managers transition through various levels of leadership to fill the leadership pipeline.

What are the Benefits?

Strategic Leadership Assessment helps an organization identify, assess, and develop the necessary competencies for leadership within their existing management team. Additional benefits include:

- Asking the six essential questions necessary to evaluate the current situation
- Assessing competencies essential to leadership
- Identifying the gaps within existing management staff
- Establishing developmental initiatives and objectives
- Creating an effective development plan

What is Learned?

Strategic Leadership Assessment is designed to help individuals identify their “gifts” and “limits” and assess their leadership capabilities and competencies. It then focuses on creating their developmental needs that link back to their role as it relates to the strategic intent of the business. Program highlights include:

Six Passages of Leadership
Emotional Intelligence
Tools and Ingredients
Resources

Navigating effective leadership
Critical Thinking Skills
Leadership Road Map
